

Turano Baking Company

Baking with Clean Energy

LOCATION	Oak Park, IL
SECTOR	Commercial
MATERIALS	Mult, Jinko Panels with SolarEdge inverters and optimizers
SYSTEM SIZE	85.6 kW

About The Project

Turano Baking Company approached us with a goal of reducing their carbon footprint and wanted to do what they could to go green. This project produces over 100% of the electricity for their warehouse & truck fill-up station's electricity. We have more projects with Turano in the works and are very excited to help them achieve their sustainability goals.
